Lots of details on the RCPCH website

West Midlands

Probably won't be an opportunity to do SPIN in Cardiology

All others are feasible at present

I am currently in the process of asking units about what SPIN they can provide

BCH

Ideally, any applicants will spend some time in BCH with their chosen Specialists

Cannot always guarantee this due to Grid trainees taking precedence

Grid

You are able to apply for SPIN as a precursor to Grid

The curricula are fairly similar

This will at least place you in a tertiary level posts while applying for Grid

You can do more than one SPIN during Level 3 training

If successful...

Your SPIN module will be added to your portfolio

You will be allocated a SPIN Supervisor

They will sign off your completion once you are happy with the evidence you have uploaded
